Re: Hillman Properties Northwest:

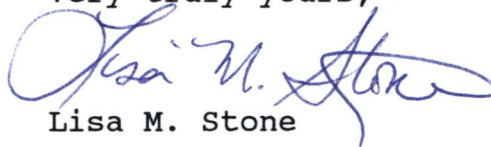

Dear Mr. Boller:

This letter will confirm our telephone conversation of March 3, 1989, in which I inquired about the status of the closure report submitted for Building 5 of the Columbia Industrial Park. You informed me you expected to have the final comments on the report back from the agency's contractor, Ecology and Environment, "any day."

As I told you, Hillman Properties is anxious to begin final cleanup at the site as soon as possible. You stated that you would begin preparation of the agency's response to the closure report immediately, although you naturally cannot return final comments to Hillman Properties until you receive the contractor's report.

I look forward to receiving your comments as soon as they are available, so that we may move quickly to put this matter finally to rest. Thank you for taking the time to talk with me.

Very truly yours,

Lisa M. Stone
